

LED BLADE GUIDES INSTALLATION INSTRUCTIONS

Assembly:

1. Disconnect battery
2. Attach blade guides to plow blade (bolts are included)
3. Run wires along the top edge of the plow blade and secure tightly.
4. Run the wire to the plow lights leaving some slack in the wire to allow the blade to spring forward.
5. At the plow light hook the black wire to the parking light power wire and the white wire to a good clean ground (as shown in FIG. 1).
